PREFACE

The collection and dissemination of accurate and relevant information is a fundamental prerequisite to effective law enforcement administration and management at local, county and state levels.

In 1972, the Illinois Department of Law Enforcement, Division of Support Services, Bureau of Identification, assumed responsibility for the collection of Uniform Crime statistics from Illinois law enforcement agencies. As a result, law enforcement agencies, the legislature and citizens have been able to receive and utilize comprehensive information about crime in Illinois.

Since the establishment of the Illinois Uniform Crime Reporting Program, *Crime in Illinois 1977* is the sixth annual publication presenting an in-depth report of the amount, extent, and types of crime in the communities throughout the state.

I wish to thank all participating law enforcement agencies for their continuing efforts in record keeping and reporting which have made this publication possible.

It is with great pleasure that I present the following report to the people of Illinois.

Director
Department of Law Enforcement

PREFACE

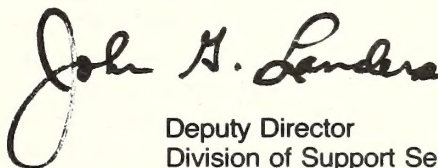

The purpose of this book is to provide a comprehensive survey of the history and development of the American people. It is written for the general reader, and is not intended as a technical or scientific work. The book is divided into two main parts, the first of which deals with the early history of the country, and the second with the more recent history. The first part covers the period from the discovery of the continent to the establishment of the United States, and the second part covers the period from the establishment of the United States to the present time. The book is written in a simple and straightforward manner, and is intended to be accessible to all readers. It is hoped that it will provide a useful and interesting survey of the history and development of the American people.

Author

FOREWORD

The Uniform Crime Reporting Program provides a comprehensive, periodic accounting of reported and discovered crime in Illinois. These reports provide detailed information for the needs of law enforcement administrators and criminal justice planners as well as providing for the public evaluation of the relative levels of criminal activity in the state.

As shown by the extent of its coverage, *Crime in Illinois 1977*, is a tribute to the cooperative spirit of the law enforcement agencies in the state.

Deputy Director
Division of Support Services

INTRODUCTION

THE ILLINOIS UNIFORM CRIME REPORTING PROGRAM

The Illinois Uniform Crime Reporting (I-UCR) Program was developed in 1971 and implemented January 1, 1972. The I-UCR Program is an incident based reporting system designed to:

1. Provide needed administrative statistics for law enforcement agencies,
2. Provide the Legislature with information necessary to formulate effective laws which address the crime problem,
3. Provide Illinois citizens with the most complete information on the nature and extent of crime,
4. Include comprehensive data for researchers and planners, and,
5. Adhere to the National Program's standards.

Reporting crime statistics is mandated by Chapter 38, Section 206-8 of the Illinois Revised Statutes and is quoted below:

206-8. Crime statistics. 8. The Department (of Law Enforcement) shall be a central repository and custodian of crime statistics for the State and it shall have all power incident thereto to carry out the purposes of this Act, including the power to demand and receive cooperation in the submission of crime statistics from all units of government.

All offenses known to law enforcement agencies are reported on a monthly basis by law enforcement agencies. This represents villages, municipalities, counties, colleges, universities, park districts, railroads, hospitals, and transit authorities throughout the State. Agencies may also submit service codes and local ordinance data in order to provide law enforcement administrators with more complete information for use in planning and research, manpower determination and utilization, budgeting, and the development and evaluation of crime prevention programs.

In 1977, 733 law enforcement agencies, representing 100% of all law enforcement agencies in the State, reported crime statistics directly to the Department of Law Enforcement, Division of Support Services, Bureau of Identification. Agencies submit their data through the use of source documents, printouts, magnetic tape, punch cards, or, remotely, through on-line terminals. The following is a breakdown by type of agency reporting through the I-UCR program:

Agency Type	Number
Police Departments	540
Sheriff's Offices	102
Colleges and Universities	25
Railroads	32
Special Services	2
Park Districts	5
Hospitals	2
Illinois State Police Districts	24
Division of Investigation	1

CLASSIFICATION OF OFFENSES

The Index Crimes, as used by the I-UCR Program and as translated into the National Program's crime index offenses, are:

1. *Murder and Voluntary Manslaughter*—The willful killing of a person or the death of a person caused by gross negligence of an individual other than the victim.
2. *Forcible Rape*—The carnal knowledge of a female, forcibly and against her will. This category includes attempts to rape.
3. *Aggravated Assault*—The intentional causing of serious bodily harm or the intentional attempt or threat of serious bodily injury or death. In Illinois, Aggravated Assault, Aggravated Battery and Attempted Murder are included in this category.
4. *Robbery*—The taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence.
5. *Burglary*—The unlawful entry of a structure to commit a felony or theft. Includes Attempted Burglary.
6. *Theft*—The unlawful taking or stealing of property or articles without the use of force, violence, or fraud. In Illinois, it includes Burglary From Motor Vehicle and Attempts.
7. *Motor Vehicle Theft*—The unlawful taking or stealing of a motor vehicle. Includes Attempted Motor Vehicle Theft.

The statistics utilized in this report are based on offenses occurring between January 1, 1977 and December 31, 1977.

THE CRIME INDEX

The Crime Index has been used for many years to indicate the amount and extent of serious crimes as defined by the International Association of Chiefs of Police (IACP) Committee on Uniform Crime Reports. The Crime Index consists of the offenses of Murder,

Forcible Rape, Robbery, and Aggravated Assault which are categorized as Violent Crime, and the offenses of Burglary, Larceny-Theft, and Motor Vehicle Theft which are categorized as Property Crimes. The Crime Index is illustrated below followed by the definition of the Crime Rate and its formula.

THE CRIME RATE

The Crime Rate is defined as the total number of index crimes per 100,000 inhabitants and is calculated as follows:

$$\text{CRIME RATE} = \frac{\text{Crime Index} \times 100,000}{\text{Jurisdictional Population}}$$

The jurisdictional population can be a city, town, county, state or the nation.

CONSIDERATIONS FOR INTERPRETATION

When comparing the crime statistics of one agency with another, many factors should be taken into consideration before conclusions are made. Some of the conditions affecting the type and volume of crime occurring are:

1. Density and size of the community population and the metropolitan area of which it is a part.
2. Composition of the population with reference particularly to age, sex, and race.
3. Economic status and mores of the population.
4. Stability of population, including commuters, seasonal, and other transient types.
5. Climate, including seasonal weather conditions.

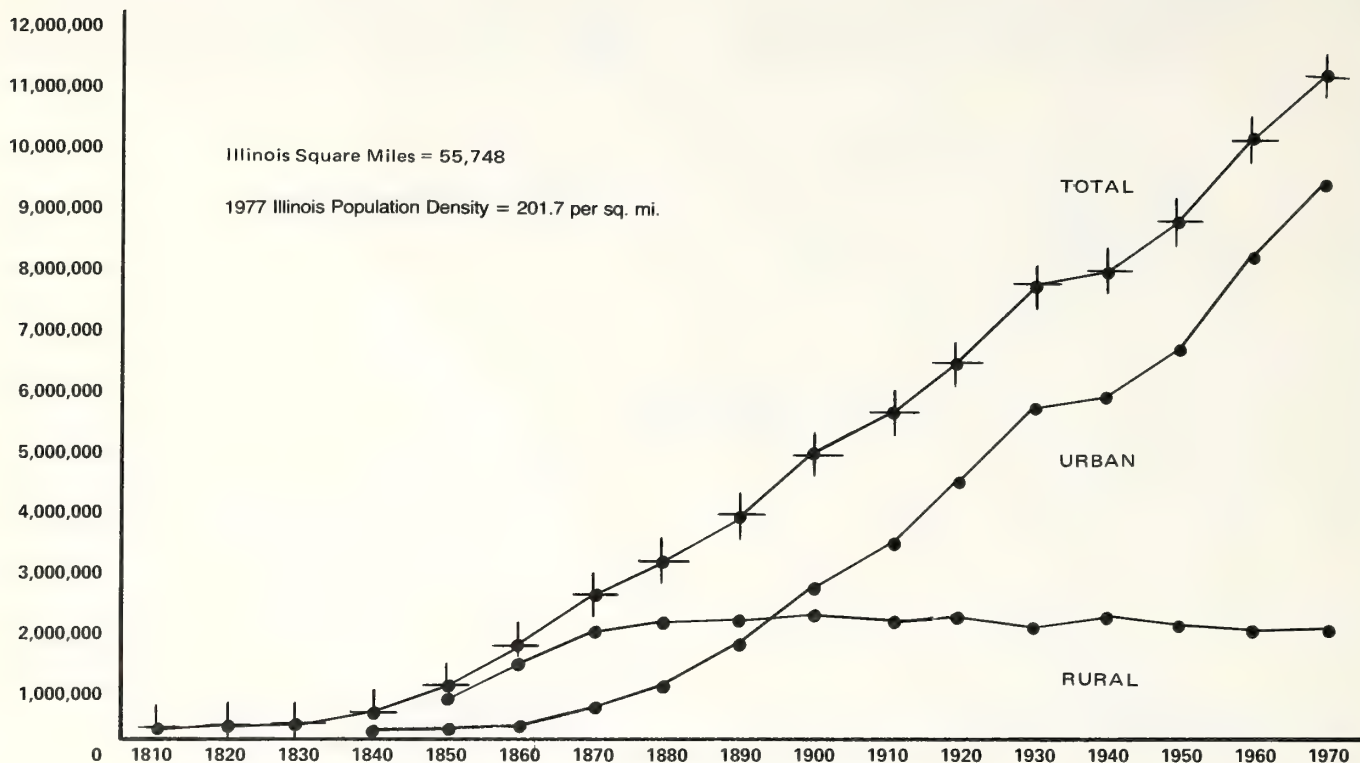

6. Educational, recreational, and religious characteristics.
7. Effective strength of the police force.
8. Standards of appointments to the local police force.
9. Policies of the prosecuting officials.
10. Attitudes and policies of the courts and corrections.
11. Relationships and attitudes of law enforcement and the community.
12. Administrative and investigative efficiency of law enforcement, including degree of adherence of crime reporting standards.
13. Organization and cooperation of adjoining and overlapping police jurisdictions.¹

STATE SUMMARY

As discussed in the introduction, the Crime Index consists of seven statistical classifications as defined by the National Program. The relationship between the Illinois Uniform Crime Reporting offense classifications and the National offense classifications is illustrated below:

The rate of change in reference to each index offense from 1976 to 1977 is illustrated in Table 1. Also included in this table is a comparison of Index Crimes as reported since 1972. The largest decrease in Violent Crimes, or Crimes Against Persons, was in the offense of Robbery, representing a decrease of 19.74 percent since 1972. This crime category also accounted for the greatest decrease in all of the Crime

Crime Index Offenses

	ILLINOIS CLASSIFICATIONS	FBI-UCR CLASSIFICATIONS
VIOLENT CRIMES	Murder (Chapter 38-9-1)	Murder & Non-negligent Manslaughter
	Voluntary Manslaughter (Chapter 38-9-2)	
	Rape (Chapter 38-11-1)	Forcible Rape
	Robbery (Chapter 38-18-1)	Robbery
	Armed Robbery (Chapter 38-18-2)	
	Attempted Murder (Chapter 38-8-4)	Aggravated Assault
	Aggravated Assault (Chapter 38-12-2)	
	Aggravated Battery (Chapter 38-12-4)	
PROPERTY CRIMES	Burglary (Chapter 38-19-1)	Burglary
	Theft (Chapter 38-16-1)	Larceny/Theft
	Burglary From Auto (Chapter 38-19-1)	
	Vehicle Theft (Chapter 38-16-1)	Vehicle Theft

The data presented represents offenses reported by the 1,064 law enforcement agencies in the State; 733 of which report directly to the Bureau of Identification and 331 small departments that report through the sheriffs' offices.

Chart 1 illustrates the Total Crime Index Trend for the years 1965-1977. During the calendar year 1977, law enforcement agencies reported 538,840 index offenses, representing a 3.90 percent decrease from 1976. Violent Crimes accounted for 9.36 percent of the Crime Index in 1977, representing a decrease of 3.77 percent from 1976. Property Crimes accounted for 90.64 percent of the index offenses, representing a decrease of 3.91 percent from 1976.

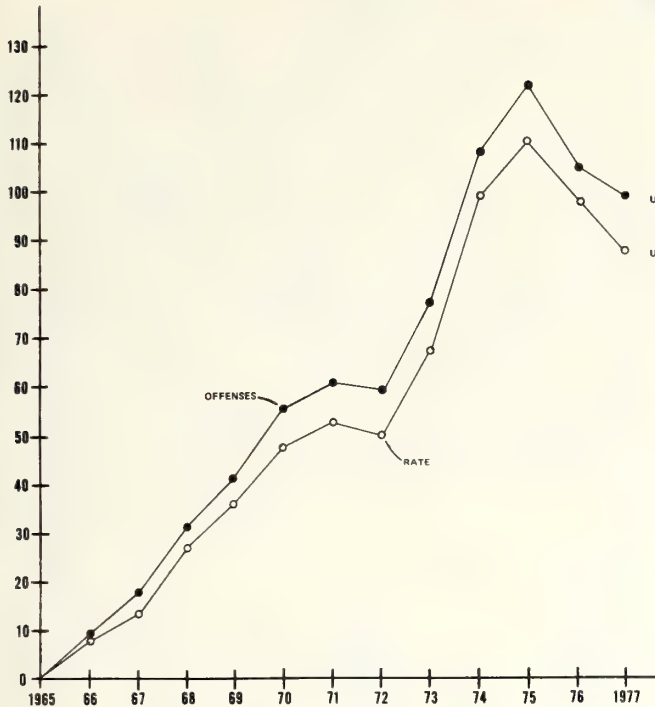

Index offenses, comparing 1972 figures to 1977. The base year of 1972 was chosen for this chart because 1972 represents the year when the I-UCR statistical base represented the strongest initial participation in the Illinois program by local law enforcement agencies.

A detailed look at each of the Crime Index offenses follows the collected data on Crime Index Arrests. Each of the Crime Index offenses are defined according to the *Illinois Revised Statutes, 1977*, in the glossary.

Crime Rate=Crime Index per 100,000 population.

CRIME INDEX—MURDER AND VOLUNTARY MANSLAUGHTER, FORCIBLE RAPE, ROBBERY, AGGRAVATED ASSAULT-BATTERY AND ATTEMPTED MURDER, BURGLARY, THEFT AND MOTOR VEHICLE THEFT.

Note: As of January 1, 1973, the theft category was changed to include all thefts, regardless of dollar value. Therefore, the theft offenses from 1965-1972 have been adjusted to include all theft (both under \$50, over \$50 and attempts).

CRIME INDEX ARRESTS

There were 113,403 persons arrested for the Crime Index Offenses during 1977. Males represented 91,927 or 81.06 percent of those persons arrested and females represented 21,476 or 18.94 percent. In 1976, males accounted for 82.03 percent and females accounted for 17.97 percent of the Crime Index Arrests

which indicates only a slight variation between the two years. Whites arrested for Index Crimes totaled 53,347 or 47.04 percent, Negroes arrested totaled 53,396 or 47.09 percent, and all other races totaled 6,660 or 5.87 percent. Table 2 details the arrest figures for Crime Index Offenses and compares them to the 1976 arrest figures.

CRIMES AGAINST PERSONS

The Violent Crimes or Crimes Against Persons consist of Murder and Voluntary Manslaughter, Forcible Rape, Robbery, Aggravated Assault, Aggravated Battery, and Attempted Murder. A total of 50,449 Violent Crimes were reported during 1977. Chart 2 depicts the long term trend and specific data of crimes against persons beginning with the year 1965. In 1977, Violent Crimes decreased by 3.77 percent as compared to 1976 but increased by 46.89 percent as compared to the 1965 figures. Crimes Against Persons amounted to 9.36 percent of the total Crime Index offenses reported. Each of the Violent Crimes will be considered separately in this section, following a review of the data on persons arrested for Violent Crimes.

Chart 2
CRIMES AGAINST PERSONS TREND
1965-1977

CRIMES AGAINST PERSONS ARRESTS

Arrests made for offenses within the Crimes Against Persons or Violent Crimes category are illustrated in Table 3. The total number of persons arrested for Violent Crimes in 1977 was 18,042 or 15.91 percent of all Index Crime Arrests. Males arrested accounted for 92.06 percent of the Violent Crimes arrests while females arrested totaled 1,433 or 7.94 percent. Whites arrested totaled 6,838 or 37.90 percent of those arrested for Violent Crimes and Negroes arrested totaled 9,893 or 54.83 percent. All other races accounted for 1,311 arrests or 7.27 percent of the Violent Crimes arrests. The percent of change of arrests for this category from 1977 to 1976 is detailed in Table 3.

Crimes Against Persons = Murder & Voluntary Manslaughter, Forcible Rape, Robbery, Aggravated Assault-Battery & Attempted Murder

MURDER AND VOLUNTARY MANSLAUGHTER

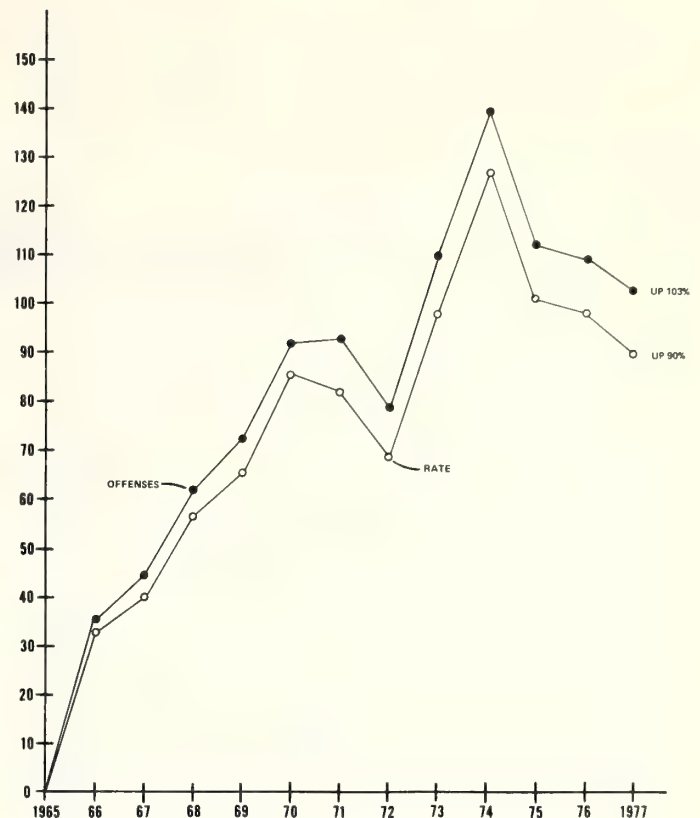

The Crime Index Offenses of Murder and Voluntary Manslaughter are merged in accordance with the National Program definition and are based solely on police investigation. Law enforcement agencies reported 1,119 of these crimes in 1977.

The long term trend of Murder and Voluntary Manslaughter is illustrated in Chart 3. The number of homicides reported in 1977 increased by 103.09 percent over 1965 which is the base year used for comparison purposes. An analysis of these two offenses indicates that Murder and Voluntary Manslaughter are difficult to prevent by law enforcement alone because the majority of the crimes are committed by persons known to the victim. Table 4 displays the number of incidents of Murder and Voluntary Manslaughter by month, compares 1977 figures to 1976 figures, and illustrates the distribution of occurrence of these two offenses over the year's time span.

Crime Rate=Crime Index per 100,000 population.

Type I is that relationship whereby the victim and offender were part of the same family unit. This category includes common-law spouses and in-laws.

Type II is that relationship whereby the offender and victim were known to each other but were not part of the same family unit. Former spouses and homosexual relationships are included in this grouping.

Type III is that relationship whereby the victim and offender were strangers to one another or the relationship was unknown to the reporting law enforcement agency.

Table 5 represents a collection of specific data about the types of Murders and Voluntary Manslaughters reported during 1977. The victim's sex and race, the type of weapon used, and the relationship between the victim and offender are summarized. In order to clarify the three types of relationships between the victim and offender, the following explanation is in order:

Table 5 includes a comparison of the 1977 data to the 1976 figures. Males accounted for 77.3 percent of the 1977 homicide victims; in 1976 the figure was a similar 72.98 percent. Females represented 22.7 percent of the 1977 victims whereas in 1976, females represented 27.02 percent, a slight increase. By far the most common weapon used in Murders and Voluntary Manslaughters during both 1977 and 1976 was the handgun. In 1977, 49.78 percent of all offenses in this classification were committed with a handgun. In 1976, the figure was slightly higher, at 50.48 percent. The

Murder and Voluntary Manslaughter victim more often than not knew his or her slayer. In 1977, 637 of the 1,119 reported relationships indicated the offender knew his victim, or 56.93 percent of the situations. In 180 cases, or 16.09 percent, the offender killed a member of his or her family. In 457 cases, or 40.84 percent, the offender/victim relationship was that of knowing each other but not belonging to the same family unit. In 482 situations, or 43.07 percent, the victim/offender relationship was either unknown to the reporting agency or the persons involved were strangers. Further details are in the table referenced.

In Table 6, a monthly breakdown of Murders and Voluntary Manslaughters reported in 1977 by situation is presented. September showed the highest number of Murders and Voluntary Manslaughters reported; also during this month, the highest number of Single Victim/Single Offender situations was reported. This situation type A represents 60.23 percent of the total

number of Murders and Voluntary Manslaughters occurring in 1977. Likewise, situation type E, Multiple Victims/Multiple Offenders represented the smallest number of this offense type that occurred or 0.57 percent of Murders and Voluntary Manslaughters reported in 1977.

SITUATIONS

- A Single Victim/Single Offender
- B Single Victim/Unknown Offender(s)
- C Single Victim/Multiple Offenders
- D Multiple Victims/Single Offender
- E Multiple Victims/Multiple Offenders
- F Multiple Victims/Unknown Offender(s)

The number of situations illustrated above reflects the number of incidents of Murder and Voluntary Manslaughter. There were 1,119 Murders in 1977; this figure is broken down into the six types of situations to detail the circumstances of these two offenses. In other words, there were 1,056 incidents of

Murder and Voluntary Manslaughter in 1977, with a total of 1,119 victims. Situations D, E, and F, those with multiple victims, account for the difference between the number of Murders and Voluntary Manslaughters and the number of situations.

MURDER AND VOLUNTARY MANSLAUGHTER ARRESTS

There were 1,253 persons arrested for Murder and Voluntary Manslaughter in 1977. As Table 7 illustrates, this figure represents a decrease of 14.59 percent from arrests made in 1976 for this crime category. Males arrested represented 88.27 percent of the total with females accounting for 11.73 percent of all arrests for Murder and Voluntary Manslaughter. Whites arrested totaled 256 or 20.43 percent, Negroes arrested totaled 809 or 64.57 percent, and all other races arrested accounted for 188 or 15.00 percent of those persons arrested. Table 7 also details the comparison of these arrest figures for 1977 to those of 1976.

Chart 4
FORCIBLE RAPE TREND
1965-1977

FORCIBLE RAPE

There were 2,407 reported Rapes in 1977. This figure represents 4.77 percent of the Violent Crimes committed and .45 percent of all Crime Index offenses. Rape offenses increased by 1.01 percent as compared to the 1976 figures. In 1976, 2,383 Rapes were reported. The Crime Rate for Rape in 1977 was 21.41 per 100,000 inhabitants. This represents a slight increase over the Crime Rate for Rape in 1976 which was 21.22 per 100,000 inhabitants. Chart 4 illustrates the offense trend since 1965 for Rape and it offers further details of the overall picture of this offense category.

FORCIBLE RAPE ARRESTS

Table 8 illustrates the arrests made for Forcible Rape during 1977 as compared to 1976. The total number of males arrested, 1,116, accounted for 99.29 of all arrests for Rape. Adults arrested represented 1,003 or 89.23 percent and juveniles arrested represented 121 or 10.77 percent of the total. There were 322 whites arrested, or 28.65 percent, 700 Negroes arrested, or 62.28 percent, and 102 persons of other races arrested, or 9.07 percent of the total. Refer to Table 8 for further details.

ROBBERY

Robbery, by definition, includes assault and/or battery with the intent to deprive the person of property or commit a theft. It is considered in the Illinois UCR Program as a Violent Crime Against Persons.

There were 23,651 Robberies reported in 1977, a figure which represents 46.88 percent of the Crimes Against Persons and 4.39 percent of all the Crime Index offenses. These reported Robberies represent a decrease in volume of 3.86 percent as compared to the 1976 Robbery figures. The Crime Rate for Robbery in 1977 was 210.32 offenses per 100,000 inhabitants. In 1976, the Crime Rate was 219.08 offenses per 100,000 inhabitants; the 1977 data indicates a decrease of 4.0 percent in the Robbery Crime Rate. Chart 5 depicts the overall picture in the Robbery crime trend since 1965.

Crime Rate=Crime Index per 100,000 population.

Table 9
ROBBERY BY TYPE OF WEAPON

METHOD	NO. OF OFFENSES	% OF TOTAL
FIREARM	9,522	40.26
KNIFE OR OTHER CUTTING INSTRUMENT	2,387	10.09
OTHER WEAPONS	2,303	9.74
STRONG ARM — NO WEAPON	8,627	36.48
ATTEMPT — ARMED ANY WEAPON	386	1.63
ATTEMPT — STRONG ARM	426	1.80
TOTAL	23,651	100.00

Table 9 details the types of Robbery by type of weapon used as reported to the I-UCR Program. Firearms were the most commonly used weapon, 40.26 percent of the total. The category of Strong-Arm Robbery—no weapon used was the second most common type of Robbery reported, 36.48 percent of the total. A Strong-Arm Robbery is one where a certain degree of force but no weapon was used to commit the crime. There were a total of 14,212 Armed Robberies reported in 1977, not including the 386 Attempted Armed Robberies. This is 60.09 percent of all Robberies reported. Strong-Arm Robberies, not including attempts represented 36.48 percent of all Robberies. The Attempted Robberies, Armed or Strong-Arm totaled 812 or 3.43 percent of the total.

years. Whites arrested totaled 1,889 or 13.28 percent while Negroes arrested totaled 6,317 or 70.56 percent. All other races represented a total of 747 or 8.34 percent of those persons arrested for Robbery during 1977.

Table 11 presents an analysis of Robbery by Place. Highways, streets, and alleys were the places Robberies occurred most often in 1977, 48.61 percent of the total incidents. Residences represented the second highest location, at 13.98 percent. Property involved in committing Robbery amounted to \$5,481,935 in 1977. Of this total, \$3,394,522 worth of property was recovered and \$2,526,458 was destroyed.

ROBBERY ARRESTS

Table 10 displays the details of persons arrested for Robbery, including a comparison to the 1976 Robbery Arrest figures. Of the 8,953 total persons arrested, males accounted for 8,385 or 93.66 percent and females represented 568 or 6.34 percent. In 1976, males arrested represented 94.45 percent of Robbery Arrests so the figures show little change between the two

The Crime Index shows a total of 23,651 offenses of Robbery reported. Table 11 indicates 22,711 offenses reported. The difference of 940 is made up of 812 Attempted Robberies which were not included in the Analysis by Place. The remaining 128 offenses represent incidents that were reported as offenses by law enforcement agencies but no property analysis was included along with the offense report.

AGGRAVATED ASSAULT, AGGRAVATED BATTERY, AND ATTEMPTED MURDER

These three offenses make up the Aggravated Assault category of the National Program. The offenses of simple battery, simple assault, battery or assault without intent to do great bodily harm, and reckless conduct are not included in this crime category. These other offenses are included in the I-UCR Program under a sub-category in order to be consistent with the National Program.

Chart 6
AGGRAVATED ASSAULT, BATTERY, AND
ATTEMPTED MURDER TREND
1965-1977

Aggravated Assault, Aggravated Battery, and Attempted Murder accounted for 23,272 offenses in 1977. In 1976, 24,288 of these offenses were reported so the 1977 figures represents a decrease of 4.18 percent. These offense figures represent 4.32 percent of the Crime Index total and 46.13 percent of all Crimes Against Persons. The Crime Rate for these three offenses in 1977 was 206.95 per 100,000 inhabitants, a decrease of 4.32 percent of the 1976 Crime Rate for this crime category. Chart 6 further illustrates the crime trend for Aggravated Assault, Aggravated Battery, and Attempted Murder.

Table 12 depicts the types of weapons used in this offense classification during 1977. The use of knives or other cutting instruments occurred most frequently, 30.89 percent of the time. The table shows a breakdown of the type of weapon used for each of the three offenses. The use of firearms occurred in 26.88 percent of the cases reported. Refer to Table 12 for other weapon-used statistics.

AGGRAVATED ASSAULT, AGGRAVATED BATTERY, AND ATTEMPTED MURDER ARRESTS

In Table 13, the figures for persons arrested for these three offenses in 1977 are illustrated. Males accounted for 6,002 arrests, or 89.42 percent and females accounted for 710 or 10.58 percent of these arrests. Whites represented 65.12 percent of the arrests, Negroes represented 30.80 percent, and all other races represented 4.08 percent. Further breakdowns of the arrest figures for this offense category as compared to the arrests of 1976 for this category are detailed in Table 13.

Chart 7
CRIMES AGAINST PROPERTY TREND
1965-1977

CRIMES AGAINST PROPERTY

Burglary, Theft, and Motor Vehicle Theft make up the category of Crimes Against Property. Each will be considered separately in this section along with an analysis of the non-Crime Index offense of Vandalism.

Property Crimes amounted to 488,391 incidents in 1977, or 90.64 percent of the Crime Index offenses reported. This indicates a decrease of 3.91 percent as compared to the Property Crimes reported in 1976 which totaled 508,290 or 90.65 percent of the Crime Index. This shows no significant change in the distribution of Property Crimes within the Crime Index for 1977/1976.

Chart 7 depicts the long-range trend of Crimes Against Property since 1965. The trend shows an increase in Property Crimes of 106.39 percent since 1965 and the Crime Rate for this type of offense has increased by 95.36 percent over that of 1965.

Crime Rate=Crime Index per 100,000 population.

CRIMES AGAINST PROPERTY-BURGLARY, THEFT, AND MOTOR VEHICLE THEFT

NOTE: As of January 1, 1973, the theft category was changed to include all thefts, regardless of dollar value. Therefore, the theft offenses from 1965 - 1972 have been adjusted to include all theft (both under \$50, over \$50, and attempts).

Crimes Against Property = Burglary, Theft, & Motor Vehicle Theft

CRIMES AGAINST PROPERTY ARRESTS

In 1977, there were 95,361 persons arrested for Crimes Against Property. In 1976, there were 98,449 persons arrested which means the 1977 figure represents a decrease in arrests of 3.14 percent. The number of persons arrested in 1977 for Property Crimes represents 84.09 percent of all Crime Index Arrests. Males accounted for 75,318 or 78.98 percent of Property Crime Arrests while females accounted for 20,043 or 21.02 percent of the arrests. White arrestees represented 48.63 percent, Negro arrestees repre-

sented 45.62 percent, and all other races represented 5.61 percent of arrests made. A further breakdown of the Property Crime Arrests is represented in Table 14.

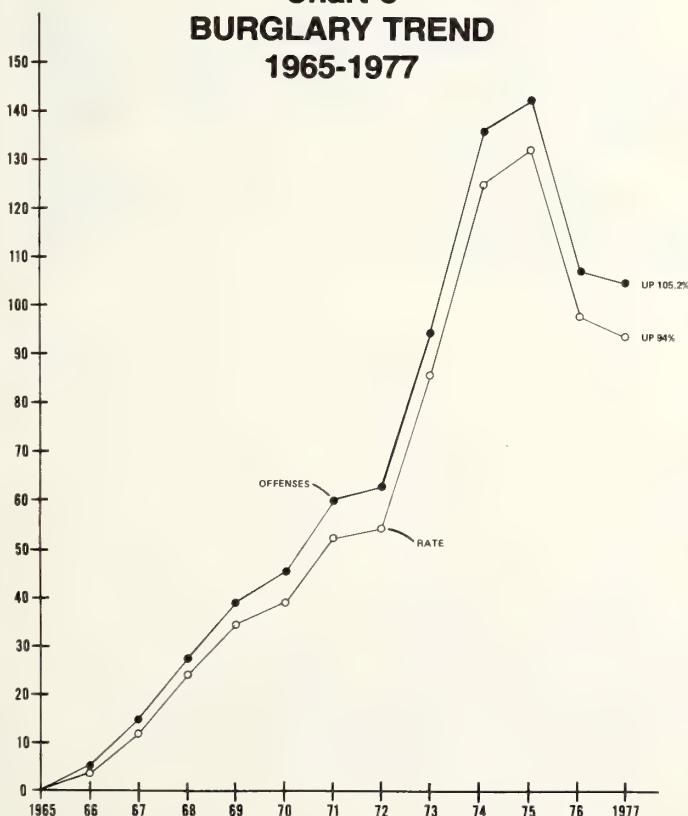

At the end of the analysis of each Property Crime, there are several summaries of data. Table 27 is the Annual Property Analysis by offense. Table 28 is the Annual Property Summary by Place and Table 29 is the Annual Property Summary by Property Type. The Property Summaries include the Crime Index Offenses, and the Non-crime Index Offenses of Arson, Deception, and Vandalism.

BURGLARY

The I-UCR Program has two categories of Burglary: Burglary from Vehicle and Burglary. The Burglary from Vehicle is treated as a Theft on the National level in the Index Crime called Theft/Larceny. In order to be consistent with the National Program, the Illinois statute for Burglary was divided in order to collect and disseminate statistics by State law. Data related to Theft will have Burglary from Vehicle data included.

Burglaries accounted for 120,171 offenses in 1977, or 24.61 percent of the Crimes Against Property. This figure represents a decrease of 1.34 percent in volume as compared to 1976. Chart 8 shows the Burglary Trend since 1965 both in terms of volume and the Burglary Crime Rate.

TOTAL	20,065	21,937	- 8.53								

BURGLARY ARRESTS

Burglary Arrests (not including arrests for Burglary from Vehicle) totaled 20,065 in 1977. Adults represented 55.36 percent of the arrests and Juveniles represented 44.64 percent. Males accounted for 95.69 percent of Burglary Arrests. Whites arrested totaled 10,348 or 51.57 percent, Negroes arrested totaled 8,273 or 41.23 percent, and all other races totaled 1,444 or 7.2 percent. Refer to Table 15 for further breakdowns of Burglary Arrests.

The Illinois Uniform Crime Reporting Program is assisting law enforcement agencies through the analysis of this and other crimes in terms of beat analysis, time of day of occurrence, analysis of persons arrested and residency, stolen property, and location analysis. Table 16 is such an analysis; it details Burglaries reported according to place and includes the stolen property values. Table 17 details Burglaries reported according to property type and value.

Burglaries accounted for \$64,012,117 worth of stolen property in 1977, an increase of \$4,252,818 or 7.12 percent over 1976. Recovered property amounted to \$13,534,012 in 1977. Burglaries occurring in Residences accounted for 57,979 incidents or 51.94 percent of the total. Daytime Burglaries accounted for 45.85 percent of the total, nighttime Burglaries accounted for 37.71 percent, and 16.44 percent were unknown as to time occurred; i.e., the person was away from home and upon discovery of missing property or a forcible entry, the time could not be pinpointed. What is noteworthy is the high percent of daytime Burglaries of residences, 51.9 percent. This indicates that persons committing these acts are aware that occupants are at work, on vacation, out of town, etc. This situation in turn raises the question of how to prevent burglaries; i.e., what can the home owner or occupant do in cooperation with the police to prevent residential burglaries.

Jewelry ranked highest in property value stolen, \$7,377,777, followed by currency with \$5,973,481 worth reported stolen.

ICTE - (REPORT DOES NOT INCLUDE ATTEMPTS)

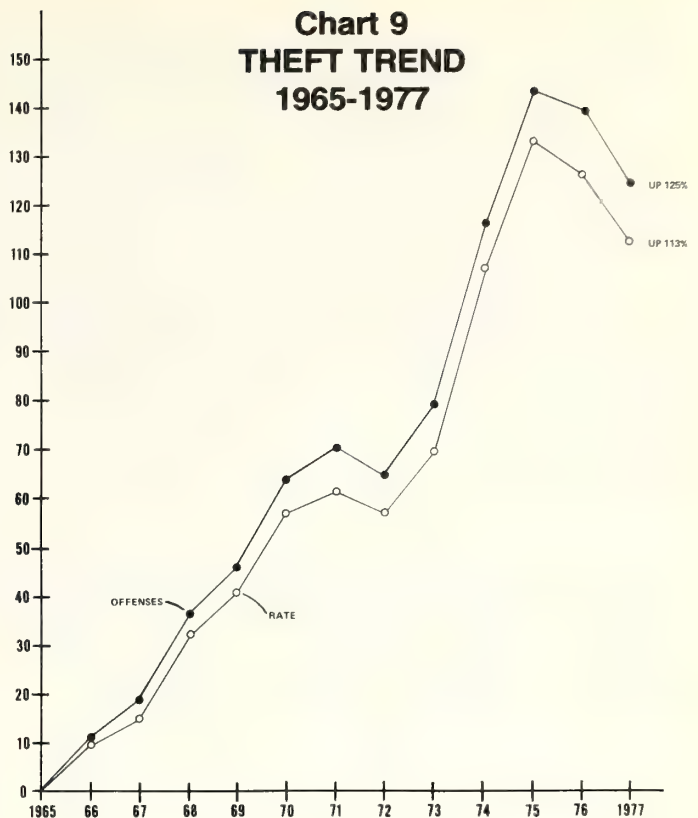

THEFT

The category of Theft includes figures on Burglary from Motor Vehicle to maintain consistency with the National Program as explained previously. There were 309,296 Thefts reported in 1977, representing 63.33 percent of all Crimes Against Property and 57.4 percent of the total Crime Index offenses. The number of Thefts reported decreased by 6.24 percent as compared to 1976, thereby causing the Theft Crime Rate to decrease to 2,750.52 per 100,000 inhabitants, a decline of 6.38 percent. Chart 9 depicts the Theft Trend since 1965. Thefts have increased by 124.72 percent over the past thirteen years.

THEFT ARRESTS

Table 18 represents the figures for all Theft Arrests made in 1977. There were 68,584 arrests made for this crime category, or 60.48 percent of all Crime Index Arrests. Males accounted for 72.85 percent of the Theft Arrests and Females accounted for 27.15 percent of the arrests. Whites represented 48.40 percent, Negroes represented 46.89 percent, and all other races represented 4.71 percent of arrests made for Theft. Adults constituted 63.36 percent of those persons arrested and Juveniles constituted 36.64 percent.

1975	11,145,000	+ 4.7	334,551	+143.1	3,001.8	+132.1
1976	11,229,000	+ 5.5	329,898	+139.7	2,937.9	+127.2
1977	11,245,000	+ 5.6	309,296	+124.7	2,750.5	+112.7

Crime Rate=Crime Index per 100,000 population.

NOTE: As of January 1, 1973, the theft category was changed to include all theft, regardless of dollar value. Therefore, the theft offenses from 1965 - 1972 have been adjusted to include all theft (both under \$50, over \$50 and attempts).

**Table 18

In Table 19, an analysis of Theft by Place is presented. This offense accounted for \$46,609,836 in stolen property in 1977, a 11.67 percent increase over 1976. Purse snatching as a method to commit Theft decreased from 9,155 incidents in 1976 to 9,076 incidents in 1977. Shoplifting as a Theft method consisted of 30,540 incidents in 1977 which amounted to \$1,807,004 in stolen property whereas in 1976, shoplifting accounted for 30,910 incidents which amounted to \$1,484,038 in stolen property. In terms of time of day when Theft offenses occurred, 31.80 percent occurred during the daytime, 18.27 percent occurred during the nighttime, and the remaining 49.85 percent of the Theft offenses occurred at an unknown time. Businesses were highest in places where this offense occurred accounting for 26,158 incidents or 9.75 percent followed by Residences making up 6.55 percent of the total.

An analysis of Theft by Property classification is presented in Table 20. Currency had the highest value of stolen property at \$4,927,810 followed by Auto Parts/Accessories at \$3,516,715. These two property items ranked highest in 1976, also. The number of items stolen as compared to the number of offenses is also presented in Table 20.

BURGLARY FROM MOTOR VEHICLE

In 1977, Illinois law enforcement agencies, excluding Chicago Police Department, reported 37,593 Burglaries from Motor Vehicles. Chicago reports the crime statistics for this sub-category in the Theft/Larceny offense classification and the figures are not broken down to differentiate the Burglaries from Motor Vehicles. The 1977 figure represents a decrease of 27.54 percent over the 51,880 incidents of this offense reported in 1976.

Table 21 is the annual Analysis of Burglary from Motor Vehicle by Place and Table 22 is this offense's Analysis by Property Classification. Highways, streets, and alleys accounted for the highest place of occurrence, with 9,101 offenses or 25.26 percent of the total. Business parking lots ranked second, accounting for 24.57 percent of the total. Tapes stand out as being the most frequently stolen item from a motor vehicle with 37,879 tapes stolen, or 16.30 percent of all items.

MOTOR VEHICLE THEFT

In 1977, Motor Vehicle Thefts rose in volume over 1976 to a total of 58,924 offenses. This increase was one of 4.13 percent. This Index Crime was also the only Property Crime to increase from 1976. The Motor Vehicle Thefts reported in 1977 represented 12.06 percent of the Crimes Against Property and 10.94 percent of all the Index offenses. The Crime Rate for Motor Vehicle Theft in 1977 was 524 incidents per 100,000 inhabitants, an increase from 1976 by 3.98 percent. Chart 10 illustrates the offense trend for this crime since 1965.

Chart 10
MOTOR VEHICLE THEFT TREND
1965-1977

MOTOR VEHICLE THEFT ARRESTS

Persons arrested for Motor Vehicle Theft during 1977 totaled 6,712 or 5.92 percent of all Crime Index Arrests. Males accounted for 91.72 percent of these arrests and adults represented 56.03 percent of the arrests. Whites totaled 2,968 or 44.22 percent, Negroes totaled 3,071 or 45.75 percent, and all other races totaled 673 or 10.03 percent of arrests. Table 23 illustrates the 1977 figures for Motor Vehicle Theft Arrests and compares them to the 1976 figures.

The Motor Vehicle Theft Analysis by Place is presented in Table 24. The value of stolen vehicles amounted to \$112,518,694 in 1977. Value recovered amounted to \$56,721,164 or 50.41 percent of the total value stolen. The percent distribution column of total offenses occurred indicates that 13.7 percent of the vehicles stolen were taken from Highways, Streets, and Alleys, followed by 9.3 percent stolen from business parking lots.

VANDALISM

The term Vandalism is used in the National Program and includes a broad range of malicious behavior such as: cutting auto tires, drawing obscene pictures on public walls, smashing windows, destroying school records, etc. It should be understood that the following statistics are not part of the Crime Index and are presented because of general interest. The Chicago Police Department does not report these offenses; it reports arrests in the general Vandalism category and not by the Specific Illinois Statutes for Criminal Damage to Property as defined in the glossary.

The Illinois Uniform Crime Reporting Program includes Criminal Damage to Property, Criminal Damage to Vehicle, and Criminal Damage to State Supported Property in the data presented under the heading of Vandalism. There were 126,662 offenses of this classification reported in 1977. This is an increase of 1,600 offenses or 1.28 percent over the 1976 figures.

Table 26 depicts the Vandalism Analysis by Place. Private residences were the most frequently vandalized place with 25,587 offenses occurring here or 21.5 percent of the total. Highways, streets, and alleys followed as a close second, representing 20.4 percent of all Vandalism incidents or 24,251 occurrences. The total value of property destroyed amounted to \$13,130,202, an increase of \$2,305,273 or 21.30 percent worth of property. Daytime incidents accounted for 41.84 percent of the total, almost equalling the number of nighttime incidents, 41.19 percent. The time of occurrence was unknown for 16.97 percent of the total.

CRIMINAL DAMAGE ARRESTS

The figures shown in Table 25 represent arrests made for Criminal Damage to Property and Criminal Damage to State Supported Property. Because Chicago Police Department only reports offense and arrest statistics for the general category of Vandalism, this agency is represented in the arrest figures in Table 25 but not in the Vandalism Offense figures.

There were 16,927 persons arrested for Criminal Damage to Property and to State Supported Property in 1977. Adults represented 54.0 percent of these arrests and Juveniles represented 46.0 percent. Males accounted for 94.84 percent and females accounted for 5.16 percent of these arrests. White arrestees totaled 11,713 or 69.20 percent, Negro arrestees totaled 4,044 or 23.89 percent, and all other races totaled 1,170 or 6.91 percent. Table 25 further illustrates arrest data for these two statutes and compares the 1977 figures to the 1976 figures.

SECTION II

CRIME INDEX 1977/1976

CRIME INDEX 1977/1976

The Crime Index for all law enforcement agencies, comparing statistics of 1977 to those of 1976, is illustrated in the following tables. The first table, Table 30, is in alphabetical order by county and law enforcement jurisdiction within the county. Some of the agencies have a numeric indicator preceding the year. The meanings of the numeric indicators are located at the bottom of each page. A number 1—One or More Months Data Missing, means that agency did not submit one or more of the required monthly reports for one reason or another. A number 2—No Index Crimes, means that agency submitted all reports but experienced no Index offenses throughout the year. A number 3—No Return From Agency, means the agency did not submit any of the required reports for the year indicated. A number 4—Reported Through Other Agency, means the agency submitted incidents of crime primarily through the Sheriff's office. Agencies that report in this manner are very small part-time agencies.

It was mentioned in the Introduction that there are many social factors that are related to crime. In making community comparisons these contributing factors must be considered in addition to community's residential population which is used to calculate the Crime Rate. Communities like Bedford Park and McCook in

Cook County have very small populations but have very large moving population because they are manufacturing areas.

Likewise, Rosemont in Cook County is located adjacent to O'Hare Airport and has a relatively large transient population due to the number of motels within the jurisdiction. As a consequence those large moving populations attract criminal behavior that occurs within these small jurisdictions, and therefore must be reported by each of the law enforcement agencies. The Crime Rate calculation does not compensate for a moving population and when one reads Index material it appears that the crimes are committed by the residents of the community which is not necessarily the case. In conclusion, caution should be exercised when reviewing and using these data.

The last page of the Crime Index shown in Table 30, contains three totals; viz., State Totals, Sheriffs (not county) and Police Departments. The State Total indicates a 3.9 percent decrease in Index Crimes in 1977 compared to 1976. The Sheriffs total shows a 2.2 percent decrease in crime and Police Departments accounted for a 4.1 percent decrease in crime in 1977 over 1976. Table 31 displays annual 1977 statistics reported by Universities and Colleges, Table 32 displays Railroads, Table 33 displays Park Districts, Table 34 displays data reported by the reporting Hospitals and Table 35 displays Other Agencies.

SECTION III

STANDARD METROPOLITAN STATISTICAL AREAS

Figure 2
STANDARD METROPOLITAN STATISTICAL AREAS

SOURCE: U.S. BUREAU OF THE CENSUS

STANDARD METROPOLITAN STATISTICAL AREAS (SMSA)

Standard Metropolitan Statistical Areas (SMSA's) are defined by the U.S. Bureau of the Census as follows:

A Standard Metropolitan Statistical Area (SMSA) includes a city of more than 50,000 and the county in which the city is located plus other cities which exhibit strong ties with the city. The county sheriff's office is also included for crime reporting purposes.

A core city is within an SMSA and has a population of more than 50,000 or more inhabitants. In certain SMSA's, there are "twin central cities" that have a combined population of 50,000 or more inhabitants and together are considered a core city.

A suburban area consists of cities and towns with 50,000 or less population including the counties which are within the SMSA. The county sheriff's office is included in the suburban area.

The rural area is the unincorporated portion of a county outside of the SMSA's. For Illinois Uniform Crime Reporting purposes, the rural area is composed of the sheriff's jurisdiction outside of the SMSA's.

The other cities are urban places outside of the SMSA's. For Illinois Uniform Crime Reporting purposes, these are cities and towns outside the SMSA's, surrounded by rural areas that are not under the jurisdiction of the county sheriff's offices.

Figure 2 is a map of Illinois with the SMSA's outlined with heavy lines. Two of the SMSA's overlap with Iowa and Missouri. Areas outside of the State that are included in an SMSA are deleted from the statistics about to be presented.

SMSA SUMMARY

Table 36 represents summary statistics for 1977 versus 1976 for all SMSA's in Illinois as defined above. The SMSA estimated population was 9,193,559 in 1977 accounting for 81.7 percent of the State population and the SMSA accounted for 90.80 percent of the State's Crime Index for 1977. Theft represented the greatest percent change with a 6.6 percent decrease in 1977 over 1976, followed by Assault down 5.3 percent and Robbery down 4.0 percent.

SMSA CORE CITY SUMMARY

Core Cities are included in SMSA's and accounted for 4,821,275 inhabitants or 52.4 percent of the total

SMSA population and 42.9 percent of the State population. Core Cities also accounted for 63.0 percent of the Total SMSA Index Crimes and 57.2 percent of State Index Crimes in 1977. Core Cities accounted for 87.3 percent of the Murders and Voluntary Manslaughters that occurred in the State in 1977. Particularly noteworthy are the figures on Robbery. The Core Cities accounted for 87.5 percent of the Robberies within SMSA's and 85.3 percent of the total Robberies that occurred in the State in 1977. Table 37 provides other informative statistics.

SMSA SUBURBAN SUMMARY

Suburban areas like Core Cities fall within the SMSA. The suburbs are bounded by the SMSA lines by definition and outside the Core Cities. Total Suburban areas accounted for 4,372,284 estimated inhabitants in 1977, and represented 38.9 percent of the total State population. The Crime Index decreased 2.4 percent in the suburbs in 1977 with Murder representing the greatest decrease followed by Theft, Rape, and Aggravated Assault in that order. Table 38 presents summary comparison statistics for 1977 and 1976.

RURAL AREA SUMMARY

Rural Areas had a .8 percent decrease in the Crime Index in 1977. Four of the Index Crimes showed an increase, while Rape, Assault and Theft decreased. Assault dropped the greatest with a decrease of 5.6 percent. Rural Areas accounted for 8.6 percent of the Illinois inhabitants and 2.6 percent of the total Index Crimes. To keep crime statistics in perspective, the Index Crimes per 100,000 inhabitants or the Crime Rate was 1,528.5 for Rural Areas in 1977.

OTHER CITIES SUMMARY

The Other Cities area consists of 199 cities outside of the SMSA's and within the Rural Areas. These cities account for 9.6 percent of the State's inhabitants and 6.6 percent of the Index Crime for 1977. Even though the Other Cities population is comparable to the Rural Areas, they experienced an increase in crime and consequently the Crime Rate is more than that of the Rural Area. Motor Vehicle Theft ranks highest in percent increase, followed by the Aggravated Assault category.

SECTION IV

OFFENSE AND CLEARANCE DATA

1977/1976 OFFENSE SUMMARY

Offense data summarized to the State level is represented in the Offense Summaries shown in the following tables. Table 41 is the 1977 Offense Summary and Table 42 is that for 1976, printed for comparison purposes. The following briefly narrates the charts to assist the reader in interpreting them.

The first column contains the four digit offense code related to the Illinois Revised Statutes. The second column, entitled Offense Classification, contains the descriptors of each offense code. (The Offense Code Sheet utilized for I-UCR scoring procedures is reproduced in the Appendix for the reader's reference.) The third column represents the number of Offenses Known to Police. The fourth column, Unfounded, enumerates those offenses that, after investigation, were found to not have occurred. This column also indicates the percent of unfounded offenses, to assist the law enforcement agency in maintaining an awareness of the number of calls received for service for criminal activity which did not actually occur. The fifth column, Referred to Responsible Jurisdiction, indicates the number of calls that were received that were found to be beyond an agency's jurisdiction and hence, referred to the responsible jurisdiction. Column six, Offenses Actually Occurred, is calculated by adding the numbers in the Unfounded and Referred to Responsible Jurisdiction columns and subtracting this sum from the number of Offenses Known to the Police. These are the offenses that the police pursued with investigation and solution, and are used in the Crime Index.

The Offenses Cleared columns contain eight sub-columns. The first four sub-columns represent figures on those offenses exceptionally cleared. A case is exceptionally cleared when:

1. The investigation has definitely established the identity of the offender, and
2. There is sufficient information to support an arrest, charge, and prosecution of the offender, and
3. The agency knows the exact location of the offender so he can be taken into custody, and
4. There is some reason outside of police control that stops the police from arresting, charging, and prosecuting the offender.

Some examples of exceptional clearances are:

1. Suicide of the offender.
2. Double murder (two persons kill each other).
3. Deathbed confession (the person responsible dies after making a confession).
4. Offender killed by police or citizen.
5. Confession by offender already in custody or serving a sentence.
6. An offender prosecuted in another city for a different offense by State or local authorities, or prosecuted in another city or state by the Federal Government for an offense which may be the same.
7. Extradition is denied.

8. The victim refuses to cooperate with the prosecution.
9. For some reason outside the agency's control, an offender is prosecuted for a less serious charge than that for which you arrested him.
10. The handling of a juvenile offender, either verbally or by written notice to parents, in instances involving minor offenses such as petty larceny. No referral is made to juvenile court as a matter of publicly accepted policy.

It is recognized that departmental policy in various police agencies permits the discontinuance of investigation and administratively closing of cases in which all possible investigation has been completed. This policy does not permit the offense to be cleared exceptionally. The recovery of property is not reason to clear a case for UCR purposes. The clearing of a case for I-UCR purposes should have no effect on the agency's internal policies for closing a case or discontinuing active investigation.

The column, Fail to File Complaint, is separated from all other exceptional clearances in order to give a clearer picture of those circumstances where the victim refuses to cooperate with the prosecution.

The column, Cleared by Arrest, is self-explanatory. Each of the clearance columns is divided into adult and juvenile sub-columns. The last column gives the total number of clearances and a percentage figure. The percentage figure is the Clearance Rate for that offense. The Clearance Rate is calculated as follows:

$$\text{CLEARANCE RATE} = \frac{\text{TOTAL OFFENSES CLEARED}}{\text{ACTUAL OFFENSES OCCURRED}} \times 100$$

At the end of each Offense Summary are five different totals. The Grand Total is the total of all activity. The *Total is the total number of incidents not necessarily included in National crime counts and are therefore subtracted for volume comparisons only with the National Program regarding all criminal activity. The Sub-Total (less *) is the total that should be used for comparison purposes. In addition, the Total Attempts to commit a crime are provided for information regarding incomplete crimes, followed by the Adjusted Total, which represents all activity less * and Attempts. The Sub-Total (less *) is used for the 1977 versus 1976 comparison of crime trends.

The Offense Summary Report is produced for each reporting agency on a monthly basis, and summarized to the State level. The Crime Index Report presented previously is developed from this basic report. For example, Attempted Murder, Aggravated Battery, and Aggravated Assault added together, make up the Aggravated Assault category of the Crime Index of the National Program. The data is kept separate on the State level by State Statute because the laws describe significantly different criminal behavior and are handled differently by the police and the prosecution.

AGE, SEX, AND RACE OF PERSONS ARRESTED AND HELD FOR PROSECUTION OR RELEASED

The total number of persons arrested for all offenses including the Crime Index offenses in 1977 was 552,778. In 1976, the total number of arrests was 571,252. Therefore, those arrests made in 1977 represented a decrease of 18,474 or 3.23 percent as compared to the 1976 figures. Males arrested in 1977 equalled 449,826 or 81.38 percent of the total and females arrested equalled 102,952 or 18.62 percent of the total. Adults accounted for 435,319 or 78.75 percent of all arrests while juvenile arrests totaled to 117,459 or 21.25 percent. Further breakdowns of those persons arrested in 1977 as compared to 1976 are represented in the following table.

The Arrest Rate is defined the same as the Crime Rate:

$$\text{Arrest Rate} = \frac{\text{Total Arrests} \times 100,000}{\text{Population}}$$

Using this formula, the Arrest Rate for Illinois in 1977 was

$$\frac{552,788 \times 100,000}{11,245,000} \quad \text{or} \quad 4,915.77 \text{ per } 100,000 \text{ inhabitants.}$$

In 1976, the Arrest Rate was 5,087.29 per 100,000 inhabitants, therefore the 1977 Arrest Rate represents a decrease of 3.37 percent over 1976.

Utilizing any of the figures listed below, the Arrest Rate can be computed. For example, for White inhabitants, the Arrest Rate for 1977 was as follows:

$$\frac{296,618 \times 100,000}{11,245,000} \quad \text{or} \quad 2,637.78 \text{ per } 100,000 \text{ inhabitants.}$$

The Arrest Rate for Negro inhabitants in 1977 was as follows:

$$\frac{221,079 \times 100,000}{11,245,000} \quad \text{or} \quad 1,966.02 \text{ per } 100,000 \text{ inhabitants.}$$

SECTION V

LAW ENFORCEMENT AGENCY INFORMATION

LAW ENFORCEMENT OFFICERS KILLED—1977

There were three law enforcement officers killed in Illinois in 1977. In 1976 there were seven law enforcement officers killed. Therefore in 1977, this figure decreased by 43 percent. A summary of each case is reported below.

May

A deputy with the Lee County Sheriff's Department was killed on May 9, 1977. The deputy was serving as a corrections officer whose death was a result of a beating inflicted by a jail inmate during the course of an attempted escape. The subject, an adult male, was taken into custody at the time of the incident.

September

An off-duty officer with the Chicago Police Department was working as a bank security guard on September 7, 1977. His death resulted from a gunshot wound inflicted during a bank robbery. The offender, an adult male, was arrested at the scene of the incident.

November

A Waukegan Police Department sergeant was shot by a murder suspect on November 13, 1977. The officer had pursued the suspect from Waukegan, Illinois to Winthrop Harbor, Illinois where he was shot with a .32 caliber handgun which the suspect had apparently used to murder his ex-wife. The offender was apprehended the day of the offense.

LAW ENFORCEMENT OFFICERS KILLED OR ASSAULTED/BATTERED

Table 44 is a summary of law enforcement officers killed, or assaulted or battered. There are three major divisions in this table: (1) Type of Weapons Used, (2) Type of Assignment, (3) Police Assaults/Batteries Cleared.

The type of weapon refers to the offender's use of a weapon to assault or batter a police officer. The type of assignment means the deployment technique for patrol and answering calls. For example, one column is headed "2-man vehicle"—2 men were assigned to a vehicle and were assaulted or battered 992 times with this deployment technique. When a "1-man vehicle" was deployed with an assist from another "1-man vehicle," the assaults and batteries amounted to 304 incidents. The last column of the table displays "cases cleared by arrests" by type of activity. In 1977, Table 44 indicates that 1,772 cases were cleared by arrest out of 1,908 (first column total) cases that occurred.

Line 15, "Time of Assault" is divided into A.M. and P.M. Note that between the hours of 0801-1000 P.M. and 1001-1200 P.M., 587 incidents occurred, or 30.8 percent of the total during the 24 hour time span. The table also shows that the highest frequency of occurrence in Type of Weapons area was when answering Disturbance Calls followed by Attempting Other Arrests, Traffic, and Handling Prisoners.

LAW ENFORCEMENT EMPLOYMENT INFORMATION

The total law enforcement personnel for Police Departments and Sheriffs Offices, as of October, 1977 amounted to 35,187 employees.

Full-time employees (sworn officers) amounted to 27,087 men and women, or 76.98 percent of the total employees on the payroll as of October, 1977. Of the 27,087 total, 26,287 were full-time male officers and 800 were full-time female officers.

Part-time employees accounted for 3,306 personnel, or 9.4 percent of the total. Male part-time employees totaled to 3,111 and female part-time employees totaled to 195.

There were 4,986 civilian personnel employed or 14.17 percent as of October, 1977. This total represents 1,868 men and 3,118 female.

Police departments employed a total of 25,993 sworn personnel while sheriffs offices employed a total of 3,113 sworn personnel. The percent of civilian employees relative to total employees for police departments was 13.34 while for sheriffs offices, the civilian employees represented 18.47 percent of the total.

For the State, the number of sworn employees per 1,000 inhabitants for police departments was 2.76. Sheriffs offices had 1.47 employees per 1,000 inhabitants. Law enforcement employees per 1,000 inhabitants should not be used as it relates to the Index Crimes because other crimes and the many services performed by the typical law enforcement officer

amounts to over 80 percent of their workload which usually remains unpublished. Again, each community should consider all the factors related to the causes of crime and determine the role of the law enforcement department relative to crime and to services that are required.

Calculation of employees per 1,000 inhabitants is accomplished by using this formula:

$$\text{EMPLOYMENT RATE} = \frac{\text{NUMBER OF EMPLOYEES} \times 1,000}{\text{YOUR JURISDICTIONAL POPULATION}}$$

Example:

Your department has 60 employees. What is the manpower ratio per 1,000 inhabitants when your current population is 51,000 inhabitants?

$$\text{ER} = \frac{60 \times 1,000}{51,000} = 1.17 \text{ or } 1.2/1,000 \text{ inhabitants}$$

If you want the full-time sworn officers per 1,000 inhabitants, use the same formula and use the number of full-time officers that you have.

GLOSSARY

GLOSSARY

The Crime Index Offenses are defined below, as listed in the Illinois Revised Statutes, Chapter 38, in alphabetical order.

Aggravated Assault

12-2 § 12-2.

- (a) A person commits an aggravated assault, when, in committing an assault, he:
 - (1) Uses a deadly weapon.

Other sub-paragraphs of this statute are accounted for in the I-UCR Program under a sub category in order to be consistent with the National Program. The intent here is to threaten great bodily harm both at the State and National level regarding Index Crimes. Aggravated Battery is the furtherance of the Assault whereby physical contact is made resulting in great bodily harm.

Aggravated Battery

12-4 § 12-4.

- (a) A person who, in committing a battery, intentionally or knowingly causes great bodily harm, or permanent disability or disfigurement commits aggravated battery.
- (b) Uses a deadly weapon.
- (c) A person who administers to an individual or causes him to take, without his consent or by threat or deception, and for other than medical purposes, any intoxicating, poisonous, stupefying, narcotic or anesthetic substance commits aggravated battery.

Armed Robbery

18-2 § 18-2.

- (a) A person commits armed robbery when he violates Section 18-1 while armed with a dangerous weapon.

Burglary

19-1 § 19-1. A person commits burglary when without authority he knowingly enters or without authority remains within a building, house trailer, watercraft, aircraft, motor vehicle as defined by the Illinois Vehicle Code, railroad car, or any part thereof, with intent to commit therein a felony or theft.

Motor Vehicle Theft

(See the definition of Theft below.)

Murder

9-1 § 9-1.

- (a) A person who kills an individual without lawful justification commits murder if, in performing the acts which cause the death:
 - (1) He either intends to kill or do great bodily harm to that individual or another, or knows that such acts will cause death to that individual or another; or
 - (2) He knows that such acts create a strong probability of death or great bodily harm to that individual or another; or
 - (3) He is attempting or committing a forcible felony other than voluntary manslaughter.

Rape

11-1 § 11-1.

- (a) A male person of the age of 14 years and upwards who has sexual intercourse with a female, not his wife, by force and against her will, commits rape. Intercourse by force and against her will includes, but is not limited to, any intercourse which occurs in the following situations:
 - (1) Where the female is unconscious; or
 - (2) Where the female is so mentally deranged or deficient that she cannot give effective consent to intercourse.
- (b) Sexual intercourse occurs when there is any penetration of the female sex organ by the male sex organ.

Robbery

18-1 § 18-1.

- (a) A person commits robbery when he takes property from the person or presence of another by the use of force or by threatening the imminent use of force.

Theft

16-1 § 16-1. A person commits theft when he knowingly:

- (a) Obtains or exerts unauthorized control over property of the owner; or
- (b) Obtains by deception control over property of the owner; or
- (c) Obtains by threat control over property of the owner; or
- (d) Obtains control over stolen property knowing the property to have been stolen by another or under such circumstances as would reasonably induce him to believe that the property was stolen, and
 - (1) Intends to deprive the owner permanently of the use or benefit of the property; or
 - (2) Knowingly uses, conceals or abandons the property in such manner as to deprive the owner permanently of such use or benefit; or
 - (3) Uses, conceals, or abandons the property knowing such use, concealment or abandonment probably will deprive the owner permanently of such use or benefit.

Voluntary Manslaughter

9-2 § 9-2.

- (a) A person who kills an individual without lawful justification commits voluntary manslaughter if at the time of the killing he is acting under a sudden and intense passion resulting from serious provocation by:
 - (1) The individual killed, or
 - (2) Another whom the offender endeavors to kill, but he negligently or accidentally causes the death of the individual killed.

Serious provocation is conduct sufficient to excite an intense passion in a reasonable person.

- (b) A person who intentionally or knowingly kills an individual commits voluntary manslaughter if at the time of the killing he believes the circumstances to be such that, if they existed, would justify or exonerate the killing under the principles stated in Chapter 38, Article 7, but his belief is unreasonable.

Other Offenses

Criminal Damage to Property

21-1 § 21-1. Any of the following acts, except any act described in paragraph (g), is a Class A misdemeanor and any act enumerated in paragraph (a) or (f) when the damage to property exceeds \$150 is a Class 4 felony;

- (a) Knowingly damages any property of another without his consent; or
- (b) Recklessly by means of fire or explosive damages property of another; or
- (c) Knowingly starts a fire on the land of another without his consent; or
- (d) Knowingly injures a domestic animal of another without his consent; or
- (e) Knowingly deposits on the land or in the building of another, without his consent, any stink bomb or any offensive smelling compound and thereby intends to interfere with the use by another of the land or building.
- (f) Damages any property, other than property described in Subsection 20-1(3), with intent to defraud an insurer.
- (g) Knowingly shooting of a firearm at any portion of a railroad train is a Class 4 felony.

Criminal Damage to State Supported Property

21-4 § 21-4. Any of the following acts is a Class A misdemeanor when the damage to property is \$500 or less, and any such act is a Class 4 felony when the damage exceeds \$500:

- (a) Knowingly damages any property supported in whole or in part with State funds or Federal funds administered or granted through State agencies without the consent of the State; or
- (b) Knowingly, by means of fire or explosive damages property supported in whole or in part with State funds or Federal funds administered or granted through State agencies; or
- (c) Knowingly starts a fire on property supported in whole or in part with State funds or Federal funds administered or granted through State agencies without the consent of the State; or
- (d) Knowingly deposits on land or in a building supported in whole or in part with State funds, or Federal funds administered or granted through State agencies without the consent of the State, any stink bomb or any offensive smelling compound and thereby intends to interfere with the use by another of the land or building.
